

Number Shape Multiplication 3x Tables

I can write multiplication statements using the multiplication and equals signs.

For each image, write the multiplication fact shown.

For example:

$$3 \times 2 = 6$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

Challenge:

Maria says, "4 × 3 is the same as 3 × 4."

Is she correct?

Use your number shapes to show how you know.

Answers

$$3 \times 3 = 9$$

$$6 \times 3 = 18$$

$$4 \times 3 = 12$$

$$5 \times 3 = 15$$

$$7 \times 3 = 21$$

Challenge:

She is correct.

Children might line up four of the 3 number shapes and three of the 4 number shapes to show the equality.
